# Upper Island District Dental Society

## Spring Conference April 21 & 22, 2017

**Crown Isle Resort**  
399 Clubhouse Drive, Courtenay

**Upper Island District Dental Society**

uidds.com uidds1@gmail.com

**Friday, April 21, 2017 8:45 to 11:45**

**Cancellations and No-shows:  
Unlock the Mystery**

**Ms Nancy McNutt**

No shows and last minute cancellations seem to be a common burning issue for dental professionals. Open time in the schedule causes significant concerns for many aspects of the practice. Unlock the mystery of why your patients don't value your time and can be retained to honor your cancellation policies. It will no longer be "just a cleaning" so you stay in crisis management. With an appropriately designed program you can simplify the mystery of downtime management and discover key strategies to **reduce your stress!!**

**Friday, April 21, 2017 8:45 to 11:45**

**Digital Dentistry & the Digital Dental Workflow**

**Dr Jonathan Ng**

What are digital impressions and how are they used? This session will address common misunderstanding and evaluate evidence regarding accuracy, efficiency and reliability. See how this revolutionary technology is utilized today to improve efficiency and productivity in everyday dental practices.

**Limited Seating  
Pre-Registration Required**

**Friday, April 21, 2017 12:30 to 3:30**

**Digital Scanners Hands On & Intro to CAD/CAM**

**Dr Jonathan Ng & Kim O'Blenis**

Take this opportunity to gain first-hand experience with digital inter-oral scanners. This unique format will present the clinical steps required for success along with the laboratory procedures that complete the successful digital workflow. It will illustrate the range of treatment options that are available for the fabrication of single tooth restorations as well as more extensive Cad-Cam construction.

**Friday, April 21, 2017 12:30 to 2:00**

**Womb to Grow: Modern Health for  
Prenatal to Preschool Patients**

**Ms Susan Woodley, RDH**

We've all heard the phrase, "It takes a village". Even if your dental practice does not routinely treat prenatal or pediatric patients, everyone has a role in providing mothers and children the healthiest start possible. Research suggests that pregnancy can be one of the most motivating times for parents to change habits which makes it an ideal time to begin counseling the parent about the benefits of oral health. This evidence based seminar nurtures your knowledge of prenatal and pediatric oral health, reviewing the needs of a pregnant patient, emphasizing the establishment of a dental home. It also provides resources on how to integrate a formalized risk assessment model and new strategies to implement that assessment. Embrace prenatal and pediatric patients in your practice. Be a part of the solution in ending one of the most serious health concerns in this country.

**Friday, April 21, 2017 2:00 to 3:30**

**Oral Pathology Update**

**UBC DENTISTRY**

**Dr Charles Shuler**

Dr Shuler is Dean & Professor at the UBC Faculty of Dentistry. He will present a potpourri of information pertaining to dental health issues facing patients today, which may include craniofacial development, oral carcinogenesis, oral medicine and gene therapy.

**Friday, April 21, 2017 3:30 to 4:00**

**Quality Assurance 2017  
"We Need Your Help"**

**Dr Ash Yarma**

The Quality Assurance Program of the CDSBC is a significant part of regulation. As such good governance requires that we re-examine our programs to see if they are still current and valid. Are they meeting the needs of our Registrants and allowing us to fulfill our regulatory mandate? This presentation will speak to what current concepts are and how you as a registrant need to play an integral role in helping determine what the QA program may look like as we move forward. Ash Yarma is the chair of the Quality Assurance Committee and a general dentist who practices in Powell River.

**Saturday, April 22, 2017 8:45 to 11:45**

**Gen Z: Choices and Challenges**

**Ms Susan Woodley, RDH**

The current and sometimes shocking health behaviors and trends in the teen generation can influence their oral and systemic health. Dental professionals have a clinical opportunity to identify risky behaviors. Participants will engage in a lively discussion on timely topics relating to Gen Z. Dialogue may include oral and overall health issues associated with nutrition, obesity, eating disorders and substance abuse. Gen Z, also known as the Global Generation, engage in multiple platforms of social media. This course identifies and addresses many of the platforms that influence teen's venturous decisions. Recognizing high risk behaviors will prepare the dental professional to initiate dialogue that may impact a teen for a lifetime.
